## PROGRESS.

We now have the New Morality officially promulgated. Morrison I. Swift and his army of the unemployed have declared in formal resolution that the commandment "Thou shalt not steal" applies only to those who have. For those who have not, either because they are too lazy to work, or because they voted at the last national election to slap prosperity in the face, stealing is hereafter to be an act of virtue. Verily, the world do move.—Truth.

## CONSISTENCY.

The Governor of Massachusetts refused to accept an increase of four thousand dollars a year in his salary, provided by a new law, on the ground that he had been elected on the basis of the old salary, and he had no right to take what had not been agreed to by the principals to the bargain.

Probably not one voter in a million, when he voted for Gov. Walsh, thought anything about his salary. But assume that they all did, and that the principle is correct; then suppose some of our Governors, to be consistent, should pay the State for all the damage they have done, not included in the election arrangements—what fine bills some of these gentlemen would have to pay.—Life.

Yes, Kentucky would be out of debt and the six largest bonding companies in the country that took such a risk would be bankrupt in consequence. But what a good plan it would be for the people.—Paris Democrat.

## WANTED TO REDUCE MINT SURPLUS.

Some way of a newspaper correspondent a few weeks ago published in a number of newspapers throughout the country a paragraph that has brought thousands of letters to the Director of the Mint from every section of the country asking that he send them \$34.90 as his or her share of the per capita circulation of the money of the United States. The correspondent stated in his dispatch that money would be due every man, woman and child in the United States if Uncle Sam's money were divided up and thousands have actually believed that by writing to the Treasury Department they would receive the money. A form letter in reply to the vast number of these letters has been gotten up in the Bureau of the Mint to disabuse the minds of those who were misled, but it has kept several clerks busy for many days simply addressing the envelopes to the misguided applicants, many of whose letters begging that the money be sent at once are pathetic.

## PUT THIS IN YOUR PIPE.

Here is an original and practical way to summarize the railroad rate cause as explained by a traffic official of the Pennsylvania Railroad.

Here is what he said: "It is unfortunate the public, who are the consumers of the products which the railroads haul and ask a right to increase the freight rates on, are so little informed as to the lowness of transportation rates as compared with other costs of production.

"For instance, few wearers of socks know that it costs only one-seventeenth of a cent to haul a pair of socks 1,000 miles, or say from Chicago to Boston, Mass. In order to earn 2 cents, enough to purchase a postage stamp, the railroads in the average freight service have to haul a ton of freight three miles or three tons one mile. It costs 2 2-5 of a cent to haul a pair of shoes 1,000 miles, 1 1-5 of a cent to haul a hammer an equal distance and 9-10 of a cent for one shirt, for a typewriter 45 cents or a ham 1-3 of a cent. And yet the dealers say—many of them, at least—that the granting of a 5 per cent, freight raise would necessitate the boosting of prices."

President Wilson's "bloodless victory" is O. K. as far as it goes.

## GOOD BOY WOODIE! WE'RE WITH YOU!

But whether our action now is to amount to "interference" with the Huertistas, the Mexicans or just a deserved spanking of Huerta, and whether war with anybody is to be the outcome of the policy of reprisal which we are to enforce, the country is now with President Wilson in his determination to vindicate our national dignity, and if war must come—the pity of it! the folly of it!—a united people will be loyally behind him with all their resources of money, manhood and patriotism.—Courier-Journal.

## THE TARIFF RESULTS.

Wholly apart from the stories of the armies of the unemployed in the different large cities of this country, the reports of the imports and exports do not seem to indicate that the expectations of the framers of the law have been fulfilled. It was promised that American manufacturers would be able to keep their mills running on full time without reducing wages, because the raw materials of their industries would come in either free of duty or at a very low rate of duty. Yet the statements of the operations of the first four months of the new tariff law show that importations of raw materials, for use in manufacture, are less under the new law than they were under the old law. It is the manufactured articles which show the increase. In other words, the promise that the new tariff would not harm any legitimate business has not been kept; and the predictions of the Republican critics of the new tariff are already being justified by the workings of the law.—Boston Advertiser.

## DYSPEPTIC PHILOSOPHY.

(New York Tribune.)

Lots of people will take everything for granted except a hint.

Fortune never smiles on a man who stares her out of countenance.

Many a girl thinks a fellow is a man after her own heart when he is really after her money.

It is generally possible to get away with graft, but you can't bribe destiny.

THE DAILY NOVELETTE.

### The Midnight Thrust.

His clock of dark disguise he held,  
Draped round his crouching finger;  
With knife upheld and polished gun,  
He didn't pull the trigger.

(By the author of "Never Too Poor to Lead," "The Anonymous Dimple," "Saxby Dipperhorn," "Love in a Torpedo," "How to Raise Pigs on an Income of Nine Beans," "His Unlucky Hour, or When the Clock Struck Thirteen," "How to Be Happy Though Cross-eyed," "Hart Kari Piffkins," "The Coyote and the Doodlebug," etc., etc., etc.)

Yindrop Waddles, pale as a pickled peach with the thought of the daring crime he was about to commit, stole down the creaking stairs.

His heart stood still as the clock struck midnight. But at the twelfth stroke it paused, and his heart proceeded on its accustomed way.

Scarcely daring to breathe, he continued on his cautious way. In his right hand gleamed a long knife. There was no blood on it, but oh! watch it when Yindrop Waddles is on his way back.

Now he has reached the second landing, now the first.

Now he is stealing through the dining room, feeling his way through the darkness, listening apprehensively at every imaginary sound. Grimly he clutches the handle of the razor-sharp knife.

Now he is in the kitchen.

Now he is fumbling at the refrigerator door and striking a match.

Now he is hacking a great slice from the remains of the cold roast beef.

"We gotta live!" he hissed. "She won't give us enough at meal time, and we gotta live."

Tucking his spoils in the especially constructed inside pocket of his pajamas, he stole back the way he had come.—Louisville Times.

## DOCTOR SAID HE HAD DROPSY

Some time ago I had an attack of grippe which finally settled in my kidneys and bladder. I doctored with the doctors and they claimed I had dropsy. I tried other remedies and got no relief from any of them. My condition was such that I was unable to work for about two months and the annoying symptoms caused me a great deal of trouble and pain. I was hardly able to turn over in bed. Seeing one of your Almanacs, I decided to give Dr. Kilmer's Swamp-Root a trial and after taking several bottles was able to resume my work again. I cannot say too much in praise of your Swamp-Root as the results in my case were truly wonderful.

Yours very truly,

ROBERT BALLARD,

Mansfield, Pa.

Sworn and subscribed before me, this 7th day of May, 1912.

RAY C. LONGBOTHUM,

The Senate passed, with amendments, a House bill calculated to revolutionize the organization of a volunteer army in any crisis.

## PROFESSIONAL INTEREST.

(Columbus Dispatch.)

The bored youth turned to his dinner partner with a yawn.

"Who is that strange-looking man over there who stares at me so much?" he drawled.

"Oh, that's Prof. Jenkins," she replied, "the famous expert on insanity."

"RIGHT LIVING" URGED TO PREVENT BLINDNESS.  
Washington.—Workers for the blind from all over the country gathered in conference here, reviewed with high praise the endeavors of humanitarian organization of the United States and Canada for the prevention of blindness and to assist in the uplift of those so afflicted. "Right living" was characterized as the most important form of prevention and "enforced blindness" was declared to be the worst cruelty that could be inflicted upon a blind person.  
Col. Ike Hart, of this city, has appealed to the Railroad Commission to recover an alleged overcharge of 4 cents from the L. & N. railroad on excess baggage. He says he is fighting for principle, which is doubtless true, as the Colonel frequently squanders as much as 5 cents at a time.  
The State of Indiana has just celebrated its annual Arbor and Bird day. Most of the States of the Union now have a yearly celebration of the kind. The Governors issue proclamations, the schools have special exercises and on such occasions there is more or less tree planting.  
So far as the general public is concerned there is a less tree planting than there should be on Arbor day—and tree planting is the object of the day. Literary exercises are very good, but unless they are supplemented by something practical in the way of putting trees in vacant spaces the purposes of Arbor day have not been fulfilled.  
There are many rural schoolhouses—and some city schoolhouses—where trees could be planted to advantage. If the pupils merely read and recite about trees and leave the school grounds barren they are not doing much for forestry conservation or for community beautification. Trees are of slow growth. Some persons hesitate about planting them because of that fact. There are others who are more than willing to leave the work to the municipalities, the schools and the Government.  
Arbor day should be an important event everywhere. No one should shirk the duty of planting a tree when the opportunity is offered. No city, no town, no village is so well supplied with trees that it does not need others. The tree mortality in the centers of population is heavy, and unless care is exercised in replacing dead and dying trees with live and vigorous ones there will some day be a dearth of shade in spots where shade is greatly needed. Arbor day comes but once a year, but in the intervals there are seasons for tree planting which should not be overlooked by those who have trees to plant and eligible places to plant them.—Courier-Journal.

**FAMILY AVOIDS SERIOUS SICKNESS**  
By Being Constantly Supplied With Theford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."  
Ten years ago a friend told me to try Theford's Black-Draught, which I did, and I found it to be the best family medicine for young and old.  
I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.  
We never have a long spell of sickness in our family, since we commenced using Black-Draught.  
Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.  
It has been in constant use for more than 70 years, and has benefited more than a million people.  
Your druggist sells and recommends Black-Draught. Price only 25c. Get a package to-day.

**MUST WRITE A NOVEL**  
Austrian Officer Commissioned to Praise Military Policy.  
(London Globe.)  
Vienna.—Considerable sensation has been aroused by the action of the Austrian war ministry in commissioning a retired army officer to write a novel in support of a particular thesis. The novel is to be a rejoinder to another novel entitled "Quo Vadis, Austria?" which appeared under a pseudonym last year, and which aroused the displeasure of the government in general and of the war office in particular. The author was discovered to be Lieut. Gustav Seiber, of the Infantry Regiment Alt-Starbemberg. He was subjected to a disciplinary inquiry, and his book was confiscated.  
Seiber's book contained a caustic and unfavorable criticism of Austria's military policy and preparedness and hence the war office has commissioned ex-Capt. Rudolf Kriz to write another novel which shall allay public disquiet. Kriz is a man of versatile literary ability, as he writes both military articles for the Austrian weeklies and humorous verse for the comic papers. Until lately he was on the literary staff of the war office.  
Captain Kriz is to finish his book within twelve months. Until then he will receive the full pay of an active officer and extra allowances, but he will not be required to do any military duty. The Austrian papers are asking from which fund are the salaries taken for officers whose sole duty is to write novels.

The god of peace and plenty never reigned in Breathitt County with more power than the present. The plow is turning over the moonshine site and the ring of the hammer has taken the place of the ring of the pistol.  
(Sturgis News-Democrat.)  
A North Carolina man who was once lucky enough to be in Sturgis and buy a pair of good shoes writes back for more of the same kind—which is another pointer to the effect that when you buy it in Sturgis it is all right.  
(Hopkinsville Kentuckian.)

**THE FARMER.**  
(By Alice L. Webb.)  
Who used to be the butt of jokes?  
The farmer.  
Who stood in awe of city folks?  
The farmer.  
Who bought gold bricks and said "I'm rich!"  
And wished that he had stayed "tew hum?"  
Who got least for his work, by gum?  
The farmer.  
Who buys the autos nowadays?  
The farmer!

**SIX MONTHS OF FREE TRADE**  
Revenue Lost, Thousands of Workmen Discharged, Prosperity Halted on Every Side.  
(Philadelphia Inquirer.)  
Six months of the Underwood Tariff law have more than justified every prediction made by Protectionists. President Wilson's idea that it would be a good plan to put the "wits of the American manufacturer against the world" is shown to be a failure. In the last six months the Nation has lost \$25,000,000 in customs revenue. It is believed that the losses will be heavier in the ensuing six months, since the woolen schedule has been in operation only three months, so that the experts of the Treasury were pretty nearly correct in their figures.  
In the six months we have lost in exports and have gained in imports. We have imported \$24,000,000 less of raw materials or materials for further manufacture than in the corresponding five months of the previous year. In the same period our exports of manufactured or partly manufactured articles fell off by \$33,000,000—a net loss to this country of \$57,000,000 in our manufacturing trade. This net loss falls upon workers in American mills and factories. Our "wits" have not met those abroad for the simple reason that our men will not work for such wages as are paid abroad. The showing for the month of March is the worst of all, and there is no prospect of a change for the better.  
The Government is \$30,000,000 behind in its balance sheet for the fiscal year to date. Appropriations are on a higher scale than ever, while the prosperity of the country is being assailed on every side. That conditions are no worse is due to the fact that our manufacturers have been doing their best to meet conditions. They have seen their profits cut down or vanish, but they have kept on because they did not want to see their organization broken up. Many thousands of employees have been discharged. This city has more idle men than at any time in a generation.  
It was as plain as anything could be six months ago that such would be the results, but the academic legislators at Washington believed that by law they could make three and three make seven.

We never have a long spell of sickness in our family, since we commenced using Black-Draught.  
Theford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.  
It has been in constant use for more than 70 years, and has benefited more than a million people.

**MUST WRITE A NOVEL**  
Austrian Officer Commissioned to Praise Military Policy.  
(London Globe.)  
Vienna.—Considerable sensation has been aroused by the action of the Austrian war ministry in commissioning a retired army officer to write a novel in support of a particular thesis. The novel is to be a rejoinder to another novel entitled "Quo Vadis, Austria?" which appeared under a pseudonym last year, and which aroused the displeasure of the government in general and of the war office in particular. The author was discovered to be Lieut. Gustav Seiber, of the Infantry Regiment Alt-Starbemberg. He was subjected to a disciplinary inquiry, and his book was confiscated.  
Seiber's book contained a caustic and unfavorable criticism of Austria's military policy and preparedness and hence the war office has commissioned ex-Capt. Rudolf Kriz to write another novel which shall allay public disquiet. Kriz is a man of versatile literary ability, as he writes both military articles for the Austrian weeklies and humorous verse for the comic papers. Until lately he was on the literary staff of the war office.  
Captain Kriz is to finish his book within twelve months. Until then he will receive the full pay of an active officer and extra allowances, but he will not be required to do any military duty. The Austrian papers are asking from which fund are the salaries taken for officers whose sole duty is to write novels.

Col. Ike Hart, of this city, has appealed to the Railroad Commission to recover an alleged overcharge of 4 cents from the L. & N. railroad on excess baggage. He says he is fighting for principle, which is doubtless true, as the Colonel frequently squanders as much as 5 cents at a time.

**ARBOR DAY EXERCISES.**  
The State of Indiana has just celebrated its annual Arbor and Bird day. Most of the States of the Union now have a yearly celebration of the kind. The Governors issue proclamations, the schools have special exercises and on such occasions there is more or less tree planting.  
So far as the general public is concerned there is a less tree planting than there should be on Arbor day—and tree planting is the object of the day. Literary exercises are very good, but unless they are supplemented by something practical in the way of putting trees in vacant spaces the purposes of Arbor day have not been fulfilled.  
There are many rural schoolhouses—and some city schoolhouses—where trees could be planted to advantage. If the pupils merely read and recite about trees and leave the school grounds barren they are not doing much for forestry conservation or for community beautification. Trees are of slow growth. Some persons hesitate about planting them because of that fact. There are others who are more than willing to leave the work to the municipalities, the schools and the Government.  
Arbor day should be an important event everywhere. No one should shirk the duty of planting a tree when the opportunity is offered. No city, no town, no village is so well supplied with trees that it does not need others. The tree mortality in the centers of population is heavy, and unless care is exercised in replacing dead and dying trees with live and vigorous ones there will some day be a dearth of shade in spots where shade is greatly needed. Arbor day comes but once a year, but in the intervals there are seasons for tree planting which should not be overlooked by those who have trees to plant and eligible places to plant them.—Courier-Journal.

Appropriations are on a higher scale than ever, while the prosperity of the country is being assailed on every side. That conditions are no worse is due to the fact that our manufacturers have been doing their best to meet conditions. They have seen their profits cut down or vanish, but they have kept on because they did not want to see their organization broken up. Many thousands of employees have been discharged. This city has more idle men than at any time in a generation.  
It was as plain as anything could be six months ago that such would be the results, but the academic legislators at Washington believed that by law they could make three and three make seven.

**THE SPRING DIET**  
Calls for a change from the requirements of colder weather.  
The system is apt to be more or less clogged as a result of hearty eating for resisting cold. And so nature has provided in the field grains wholesome nourishment to meet changing weather conditions, and rebuild played-out nerves.

**GRAPE-NUTS**  
FOOD  
—made of wheat and barley—serves a double purpose—  
It not only furnishes true nourishment for body building, including the mineral phosphates especially required by nerves and brain, but, being partially predigested, it relieves the digestive organs that are overworked and clogged by a heavy diet.  
Every spring new thousands take on Grape-Nuts as

# GABARDINES

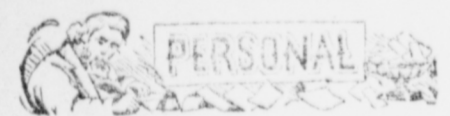

The Gabardine is the most useful article of clothing invented since Adam, and when they are sold by us, they're valuable indeed.

60 inches long—convertible collar, straight slash pockets, hand tailored, from a thoroughly water proofed fabric, so skillfully that they look as well in the sunshine as they protect when it rains.

Better stop in today and try one on, you'll buy it for the prices are really reasonable at \$15.00.

AYBE it is an old fashioned idea this notion of putting all the value possible into the car itself—and as little as possible into overhead expense—

But it has given the Paige a positively dominant position among cars of medium price—

Ample capital for operating purposes—no bonded indebtedness—no excessive capitalization—no heavy overhead of any kind to be paid for.

Just a full dollar of car value for every dollar of the selling price.

Is it any wonder that the Paige is going to be oversold again this year in spite of increased production?
